

SUBSCRIPTION RATES:
One copy, one year, \$5.00
One copy, six months, \$3.00
One copy, three months, \$2.00

Job work of every description done promptly and in the very best and most artistic manner, at reasonable rates.

Local Items.

Mammoth camp is to have a post office very soon.

Mr. Thomas Wicks, of Pinal, was down looking at the races on Tuesday.

Mr. George Bowen came down from the Mammoth a few days ago, for a short visit.

Mr. Chris Solomon, the Riverside station keeper, was a visitor to Florence on Monday.

The Board of Supervisors met yesterday to review and equalize the assessment list.

Wanted: To purchase ten or twenty work mules. For particulars apply at the ENTERPRISE office.

Next Monday will be the glorious Fourth, and everybody will celebrate with patriotic fervor.

A postoffice has been established at Red Rock, in this county, with Col. J. W. Haskin as postmaster.

Mr. F. A. Adams, the contractor and builder, is putting up a fine, large, stable on R. H. Martin's ranch.

The people of Florence took advantage of the absence of Mr. T. F. Weedon to elect him to an office of honor.

The Fourth of July observances in Tucson have been abandoned on account of the small pox in the vicinity.

The thermometer registered 117 degrees at Phoenix one day last week. The boom seems everything 'way up.

Governor Zuleik has offered a reward of \$500 for the arrest and conviction of the murderers of Samuel S. Hull.

Mr. Felix Le Blanc has recently arrived from Pinal and accepted a position behind the Florence Hotel desk.

Mr. D. S. Thomas, President of the Florence Canal and Water Company, returned yesterday from California.

The Ball Committee for the Fourth of July arrangements have secured the services of the Tucson string band for the ball.

There are calamities even worse than the earthquake. Tucson has a poet who shakes out earthquake rhyme by the yard.

Treasurer J. M. Huxley, of the Florence Canal and Water Company, was in town this week, looking after the affairs of the company.

Mr. Geo. H. Sarick has brought his flyer—the Milk Horse—to Florence and purposes getting away with the running races on the Fourth.

Supt. Arthur Macy, of the Silver King, came down yesterday to attend the meeting of the supervisors. Mrs. Macy is also visiting Florence.

Hon. Thos. F. Weedon returned on Thursday from his trip to California. His stock of drugs, books, and stationery has also come to hand.

Mr. S. M. Torres has become considerable of a painter, and will doubtless add that trade. The residence of Mr. W. R. Stone gives evidence of his skill with the brush.

Mr. D. W. Cummings left for the Vekol on Thursday. His wife will leave in a day or two for Carthage, Mo., to spend the summer, after which she will take up her residence at the Vekol.

For some unexplained reason the ENTERPRISE package mailed regularly every Saturday for Sacaton, has failed to reach that place for several weeks. There is defective mail service somewhere.

The river raised about a foot during the fore part of the week and still keeps up a very good flow of water. The summer rains in the mountains have begun and the surplus water will find its way into the river.

Mr. W. E. Guild was elected Master Workman of Florence Lodge No. 4, A. O. U. W., vice Juan Cabeza, who declined after being elected, owing to business engagements that will require his absence from town.

The efforts to change the Globe mail route from the Riverside stage route to the trail over the mountains by way of Pinal, did not meet with success. The department deemed it inexpedient to make the change.

Rev. U. Gregory was unable to keep his appointment to preach in Florence to-morrow, unavoidable circumstances having detained him in Tucson. On the 6th he will start for Tempe, and the date of his visit here is now quite indefinite.

The school election last Saturday was a quiet affair, in which but little excitement or interest was manifested. There were 65 votes polled, with the following result: Dr. Harvey received 63, D. C. Stevens, 62, T. F. Weedon 58. Phoenix cast only 22 votes at its school election.

Mr. W. N. Crandall, cashier of the First National Bank of San Bernardino, Cal., was in town this week. He is largely interested in the new canal and his confidence in the character of its investment has been greatly reinforced by his visit.

Mr. James C. Cox, whose position as farmer at the Pima agency has been abolished, passed through Florence on Sunday on his way to San Carlos where he will enter upon like duties and instruct the scalp-raising Apaches how to cultivate the deadly cucumber.

Mr. Emil Newman, consulting engineer of the Florence Canal and Water Company, was down from Riverside, California, this week, inspecting the work accomplished. He expresses himself pleased with Mr. A. T. Colton's management and highly commends all his work.

Hon. A. C. Baker, city attorney of Phoenix, spent a day or two in Florence during the early part of the week. Mr. Baker was pleasantly surprised at finding such solid evidence of a brilliant future as he was shown here, and he departed with a better opinion of Florence than he held before his latest visit.

Florence consumes half a ton of ice daily. It is brought from Tucson and consequently the cost to consumers is almost an embargo upon its use. An ice factory located here could supply three or four tons per day at fair rates, and make money. It could also supply Silver King, Pinal and several adjoining camps.

A Mammoth Incident.

The course of true love does not run any more smooth at Mammoth than anywhere else in this disappointing world, and there is at least one young man in that active camp who will involuntarily grasp the remaining portions of his olfactory protuberance while giving his solemn testimony to the truthfulness of the old adage. As the story is told, he possesses a warm affection for a sprightly senorita residing in the suburbs of the camp that does not meet the unequivocal approbation of her very prudent and somewhat suspicious parents, and their exchange of sentiment is frequently accomplished under harrowing difficulties that only a fervent love can laugh at.

Not long ago the ardent young wooer sought the paternal domicile of his innamorata just as the twilight shadows were deepening into the pall of night, and as he approached closer the parental voices in casual conversation warned him that a pardonable strategy was necessary to reach the rear of the dwelling and the object of his infatuation. He therefore made his way carefully through the growth of obscuring brush, on hands and knees the better to avoid observation.

He had nearly reached the friendly gable of the bawliwh which the keen eye of a meddlesome and unromantic dog discerned a suspicious movement in the bushes and bounded towards it fully believing a boisterous bear had strayed into a dangerous proximity to civilization. With a few bounds it reached the now thoroughly frightened young man and without attempting to recognize a friend in the crouching figure before it, the dog buried its fangs into the first prominent object in sight, which chanced to be the unfortunate nose of the unlucky lover.

How he fought the dog off and escaped without his misfortunes being supplemented by a sound thumping at the hands of the enraged father, tradition is silent, but yards of court plaster subsequently adorned the larger part of his countenance and sundry wounds about his neck, arms and breast, and the camp boys thought he was proud just because he was so profoundly stuck up.

Vekol Camp.

Mr. D. W. Cummings, who came up from the Vekol a few days ago, says the ore body on Chillon & Hinds' claim is remarkable for its extent and richness. It is thought probable that arrangements will be made to have a hundred tons of ore worked at the Vekol mill, after a while, which will net a sum sufficient to erect a new mill. All reports agree in according the Vekol camp a future of phenomenal brightness, and the developments encourage the probability. The mine belonging to Supt. Day, adjoining the claim of Messrs. Chillon & Hinds, also shows exceedingly high grade ore in flattering quantities, and it is possible that the vicinity will yet produce half a dozen more mines like the famous Vekol.

Mr. D. S. Thomas, President of the Florence Canal and Water Company, returned yesterday from California.

The Ball Committee for the Fourth of July arrangements have secured the services of the Tucson string band for the ball.

There are calamities even worse than the earthquake. Tucson has a poet who shakes out earthquake rhyme by the yard.

Treasurer J. M. Huxley, of the Florence Canal and Water Company, was in town this week, looking after the affairs of the company.

Mr. C. E. Travis, the teacher of the school on the Pima reservation spent Sunday in Florence.

His father is the superintendent of the schools and has three teachers cultivating the Pima idea. About 100 pupils attend school, or did attend before the summer vacation began. About 30 scholars were sent to the Albuquerque school a short time ago. The scholars as a rule exhibit commendable interest in their studies and are making as fair progress as their natural abilities permit.

Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems, at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for consumption, coughs and colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all throat, lung and chest affections. Trial bottles free at J. D. Rittenhouse's.

The chain gang, under the paternal care of Deputy Sheriff Rice, has been engaged in the laudable work of cleaning the streets and the ditches of all debris and filth. Mike is also working them on a new idea that is refreshing novelty: He starts them out early in the morning with a basin, and from the flowing stream upon either side the street and sidewalk are thoroughly wet down. They are really a handy element to have around after all.

Mr. Louis Deput met with a very painful accident on Wednesday morning. He was adjusting some of the machinery about the threshing machine at Martin's ranch when the middle finger of his left hand became caught and the nail was torn off together with a portion of the flesh. It is one of those distressingly painful accidents that are more difficult to endure than the greater and more serious ones.

Take It In Time.

A man who presents an appearance of debility, whose countenance is anxious, and who is subject to spells of faintness, is liable to sudden death from heart disease. Let him take Dr. Plim's Heart Remedy before it is too late. At drug stores, \$1.50. Descriptive treatise with each bottle; or address J. J. Mack & Co., S. F.

The quarantined individuals who had been exposed to a case of small pox from Tucson nearly two weeks ago, have been all discharged, no symptoms of the disease having exhibited themselves. The guards are still maintained on the roads leading to town, to examine all persons coming in, and so far the place has been fortunate enough to escape the pest.

Florence Hotel Arrivals.

The following are among those who registered at the Florence Hotel during the week: Ed Bowen, Mammoth; J. P. Edoff, San Francisco; W. J. White, Tucson; C. H. Devere, C. Grand; A. C. Baker, Phoenix; S. Reynolds, Iowa; Mrs. McAfee, " J. M. Hurley, Cal.; E. Newman, Riverside; W. N. Crandall, Cal.; Thos. Wicks, Pinal; J. D. Reymert, D. N. N.; J. W. Deise, " W. H. Stewart, Prescott; G. H. Sarick & F. Pinal; Ed Jones, Texas; A. H. White, Pinal; M. Frylanger, Portland; S. Smith, Santa Ana; E. Clark, Ohio; A. Jamison, El Paso; W. Wurst, Santa Fe; W. E. Black, Denver; Mrs. Schien, " T. Wetherby, S. Diego; A. H. White, Pinal; T. Wagstaff, Fresno; M. P. Davis, G. Swamp; A. Jamison, El Paso; W. E. Black, Denver.

FIRE WORKS

J. D. Rittenhouse received this week a beautiful assortment of Fire Works of all kinds, consisting of:

Colored Roman Candles.

Sky Rockets.

Scroll Wheels.

Flow Pots.

Blue Lights.

Triangular wheels.

Fire Crackers, Torpedoes, &c., &c.

We regret to have to say that Mr. Geo. W. Millett, one of the engineers on the M. & P. R. R. whom we noted yesterday as severely ill, died last evening at 4:30. It seems that some time since Mr. Millett sustained an injury of the skull and that the temporal vein was severed and that his death resulted from the congestion of the brain superinduced from this injury. His remains were packed in ice and forwarded to Tucson where he has a wife and family.—Phoenix Herald.

Diffusion vs. Milling.

Diffusion is the method of extracting the saccharine from sorghum and sugar cane, that will probably be adopted by the future big sugar mills, but farmers who make from 50 to 1000 gallons of syrup per day will stick to the mill. The farmer that buys a good Mill and Evaporator that will make from 100 to 200 gallons of syrup per day is the man who will make the money. If you want such an outfit, and want to be dealt fairly with, send to Chapman & Co., Madison, Ind., for their Catalogue of Mills and Evaporators, &c. They are one of the oldest houses in this line in the country.

Word was received by Mr. Elmore last week, that hoisting works for the Tortillita mines will be shipped from the east next month. They will be put in place immediately after their arrival at the mines. These mines although worked for the past several years at a disadvantage, have been steady producers. With the right kind of machinery the Tortillita will be a bonanza camp.—Citizen.

200 Laying Hens for Sale.

Two hundred laying hens for sale at my ranch. Price, \$5 per dozen.

H. G. BALLOU.

40,000 pounds of lime for sale at J. M. Ochoa's.

Dr. B. M. Thomas the former Register of the land office at Tucson, has been recalled from his home at Santa Fe, New Mexico, to turn over the office to the Register, Judge Duff. By this action it is apparent that the department does not recognize Col. Dailey as an incumbent since his rejection by the senate, which view of the case is supposed to carry with it the emoluments of the office to Dr. Thomas during the period Col. Dailey has acted as Register since being rejected.

How a Colored Mail-Carrier Got \$5,000.

An Atchison (Kan.) colored mail-carrier, A. L. Robb, says in the following account: I have been in the U. S. P. O. employ as a mail-carrier for several years past. My attention was called to the Louisiana State Lottery, and made up my mind that I would buy a ticket. For several consecutive months I invested one dollar a month as regularly as the month came, and up to April I drew a blank. I concluded to go one dollar more, and I was going to quit. I sent my dollar as before to M. A. Dauphin, New Orleans, La., and received ticket number 23,899, and found that I had drawn a prize of \$5,000, and I deposited it in the Exchange National Bank of this city.—Atchison, [Kan.] Champion, May 3.

The Los Angeles Tribune, although the youngest among the Pacific Coast dailies, now leads them all in the following account: I have been in the U. S. P. O. employ as a mail-carrier for several years past. My attention was called to the Louisiana State Lottery, and made up my mind that I would buy a ticket. For several consecutive months I invested one dollar a month as regularly as the month came, and up to April I drew a blank. I concluded to go one dollar more, and I was going to quit. I sent my dollar as before to M. A. Dauphin, New Orleans, La., and received ticket number 23,899, and found that I had drawn a prize of \$5,000, and I deposited it in the Exchange National Bank of this city.—Atchison, [Kan.] Champion, May 3.

Mr. Robert Hicks Mendley, of Suffolk, England, is now in Texas, on his way to examine portions of that state, Southern Arizona and Lower California, to secure good grazing lands for an English Syndicate to experiment with raising pure Arabian horses. It is the desire of Mr. Mendley to secure conditions of climate and characteristics of soil and grasses that closely approximate those of Arabia. Thoroughbred breeding stock will be brought direct from Arabia and with the judicious and intelligent system of training and care now in vogue it is believed that in power, endurance and speed the new generations of stock will surpass even the most famed steeds of the original stock.

The finest turnouts in the country and the best stock, at Drew & Bamrick's livery stable.

"The Arizona" is the title of the new democratic daily at Phoenix. It is bright and lively and begins its career under exceedingly auspicious circumstances. Mr. Charles L. Mosher its talented editor, was formerly connected with the Gazette and he wields a trenchant pen. Success to the new venture.

The entombed miners in the Gould & Curry mine have not yet been reached. At last accounts the rescue tunnel was within eight feet of them. Their fate will probably be known to-day.

All the raiding Apaches are now safely imprisoned at San Carlos and will be tried by court martial.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, Tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by J. D. Rittenhouse.

Warning to the Public.

All persons are hereby warned not to buy or trade for any cattle of the following brands: All on right hip and also on the right hip the letter I surrounded by a circle. The said cattle belong on the Bluewater Range and no person except myself has a right to sell any of the same.

A reward of one hundred dollars will be paid for any person driving any of said cattle from said range.

JOHN C. LOSS.

BORN.

Near Phoenix, June 24, to the wife of E. M. Mills, a son.

MARRIED.

In Florence, June 30, by Rev. Father J. Monfort, Vicente Ortiz to Petra Ward.

In Scottsboro, Ala., June 19, Ira D. Lane, to Miss Lizzie Scott.

In Tombstone, June 23, E. C. H. Beyer to Miss Ada Frey.

In Clifton, June 28th, L. Thompson to Miss Julia O'Keefe.

DIED.

At Hackberry, June 24th, John T. Davis, of hemorrhage of the lungs.

In Phoenix, June 28, Mrs. Ella B. Vinson, a native of Missouri, aged 38 years.

In Phoenix, June 23d, John R. Hollingsworth, aged 60.

F. A. Odermatt,

OPERATIVE AND PROSTHETIC DENTIST,

No. 213 Pennington St., up stairs, Tucson, Arizona.

Special attention paid to correcting irregularities in Children's Teeth.

Deformities of the mouth, either congenital or acquired, corrected by mechanical appliances.

Artificial Dentures made on Gold, Platinum or Vulcanite base.
